

Your trusted photographers for life's joyous moments

What to expect during your Mini-Session

.....

More than anything, just get ready to have fun in a way that brings you and yours closer together. This is a wonderful family and team-experience, of which we are proud to be a part. Thank you for choosing us. Here's how it works:

We will email you a pinned location on a Google Map, as well as a map to help you find the session location. We ask that you try to be 10 minutes early for your session, simply to help you get the most from your session.

Since we lease our exclusive photography session location from a private farm in Republic, MO, we will need to have you sign a liability waiver upon your arrival. We've never had any issues with safety, but it's necessary for us to keep access to this exclusive and beautiful property for photography sessions. Any minors present will need a guardian over the age of 18 to sign the waiver.

Your session will last 20 minutes, during which we will help you with posing. Some props will be provided, and we will take a lot of photos in a short amount of time. If you haven't been part of a professional portrait session before, don't worry, we will make it fun! Within a week of your mini-session, you will receive a link to your online gallery! From this gallery you can download, create favorites lists, invite other friends or family, print, or order professional prints.

Some quick tips to have the best experience:

- Beware wearing too much clothing with heavy-patterns. We all love a good plaid design, but try to keep strong patterns to a minimum to avoid clashing.
- Don't feel anxious; you will find it easy to relax during your session! We love talking with people and will work with you to get your best angles, as well as help with posing. All you need to do is relax and get ready to have some fun.
- Feel free to work out poses in advance, we don't require you to stick to our shots! If you don't, we have several shots we've picked because they are loved by our clients.
- If you have a tendency to sweat a lot, bring a handkerchief. Being able to soak up excess sweat will give you a sense of confidence that is visible in the photos.

- Sleep and snack. Try to get a decent night's rest before the session. Also, don't allow yourself to be professionally photographed while you are hungry! Plan so that you have a snack or meal close to your session time.
- Don't wear a hat unless it's intentionally intended to coordinate with your outfit.. Please check your wrists for hair ties. Wearable tech such as Apple Watches tends to look dated after aging for a while, so mechanical watches are preferred.
- If you have a blemish, it can be fixed. We professionally retouch and edit all your photos. This includes fixing the appearance of temporary imperfections in your complexion.

We look forward to working with you, and are excited to provide an amazing experience!

Sincerely,

A handwritten signature in cursive script that reads "Bradley Neuburger".
